ART BY JON SCHWOCHERT

'Gorky and Izzy's Trip To Mexico' is a digital comic by writer Fahed Rahman and artist Jon Schwochert

'Gorky and Izzy' is about two very different criminals whose personal lives are falling apart. Gorky who is an old school Boston hoodlum, is going through a bitter divorce and Izzy, who's tragic past won't stay buried, visit Mexico City to execute a dangerous heist against the vicious Sinaloa Cartel who'll do anything to protect what is theirs and reap monstrous vengeance on those who cross them.

## THEME

Though the basic plot is a heist and escape story the main idea or inspiration for telling the story is exploring modern masculinity and how difficult some men find it to be vulnerable and emotionally intelligent and aware of how the past has effected them and influences their current behaviour.

Gorky refuses to accept his marriage has broken down in part because his criminal behaviour has traumatised him and made it difficult for those he loves to be around him. Izzy's history has made him emotionally walled off and unable to emphasise.

## SYNOPSIS

The first issue follows Pasha Gorky and Rhodri "Izzy" Izzard are two of the best heist men in Boston. Gorky is an old school hoodlum from hard knock streets of Boston and Izzy is a black hat info-sec expert. They are sent to Mexico to steal a hard drive containing what they think is stolen credit card information worth millions from a drug cartel safe house.

Gorky is going through a bad divorce from the love of his life. He's falling apart and looks for solace and comfort from his friend Izzy who is unable to offer any due to his own lack of emotional intelligence. Izzy wants to complete the heist and get out of Mexico.

Gorky and Izzy successfully complete the heist but Gorky suffers breakdown. Unbeknownst to them the Sinaloa Cartel are on their trail and have sent Juve Agrazada, a former luchadore built like Frankenstein, to bring back the stolen loot and the heads of those that stole it.

The series will follow Gorky and Izzy as they try to escape from Mexico while also dealing with the emotional and relationship problems they both have. Other key characters will include mob boss Eric Mullens who sent Gorky and Izzy to Mexico and his children Steph and Shane who are vying for control over the criminal empire, Marni Gorky who is Pasha's wife and had enough with his life of crime and the effect it has had on both them and their children Liv and Daryna.
